# POOL M® anchor High Holding Power

This POOL M® is a stockless High Holding Power anchor. High Holding Power means you can reduce 25% of the weight that would normally be required for conventional anchors.

In addition to the original POOL®-TW anchor, the POOL®-M anchor was recently introduced. This modified anchor has extra features that allow it to cope with even harsher anchoring conditions, including:

o   Side skirts on the flukes take away high strains on the welds
o   The shaft has a double lay up, taking away stresses on the anchor head bolt during anchoring
o   A re-positioned stopper plate reduces anchor movement when the anchor is in stowed position

This new anchor has been granted a Dutch patent and also the European patent. Lloyd's Register, American Bureau of Shipping, Bureau Veritas, DNVGL and RINA have all given type approval.

Anchors are always fully balanced.

The POOL M anchors are strong anchors and perfect for closing (small) pockets.

WEIGHT (IN KGS)	A	B	C	D	E
60	585	543	201	555	535
90	675	625	229	642	615
